CANADA

PRIME MINISTER · PREMIER MINISTRE

July 18, 1990

Dear Mr. Liepert,

It is with great pleasure that I recognize the work you have performed as the 1989 President of the Canadian Society of Southern California.

With so many Canadians living and working in the region, it is important to have an organization such as the Canadian Society to help retain ties to Canada and to offer our American friends a view of our country.

The annual Canada Day celebration provides vivid evidence of the Society's involvement in the greater Los Angeles area. You may take great pride in the manner in which you have supported increased trade and cultural exchanges between Canada and Southern California. The membership growth enjoyed by the Society during your term as President is testimony to your stewardship of this fine organization.

Thank you for your contributions and best wishes for the future.

Yours sincerely,

Brian Mulroney

Mr. Ron Liepert,
