Dear Peter:

Re: Highlands - Beverly Constituency - Ron Liepert

Several of our board members have requested I write to you to advise you just how pleased we are to be associated with Ron Liepert.

Ron as you know was our candidate in the 1993 Election Campaign, although defeated, he did not let this waiver his commitment to our constituency and board members.

It is because of Ron's continued support and drive that we here in the Highlands are experiencing a resurgence of activity. Our fund raiser was a tremendous success. It would not have been without Ron's contribution. He made hundreds of telephone calls soliciting items, drove around collecting those items and also coerced his friends into attending. Thank goodness they had a good time!.

In the event that Ron should chose to run again in the next election for us or another constituency and perhaps some of us are not around, we want you to know we have found him to be a sincere, interested, hard working man of integrity, drive and very knowledgeable about important issues.

Really any constituency that Ron is associated with can or could call themselves fortunate.

Yours truly,

Mary Lou Leins,
President,
Highlands - Beverly Constituency
cc: Ron Liepert
