MEMORANDUM

To: **All Staff**

From: **Laurie Schild**

Date: **February 10, 1999**

Re: **Staff Announcement**

I wanted to take this time to thank each and every one of you for your continued hard work during these exciting yet challenging times. A merger the size of ours can bring about much distraction making it difficult to focus on day to day responsibilities. Thank you for making the extra effort to accommodate the increase in work load and for some of you, taking on additional work well beyond your job description. Several of us, including myself, have and will continue a heightened pace of travel between Calgary, Edmonton and Vancouver, as we begin to integrate our own processes, strategies and deliverables. For the next six months, Lyn Brown will lead the Integration Team communication requirements which will occupy up to 80% of her time.

In the interim, I am most pleased to announce that effective March 8th Ron Liepert has agreed to join our department. Ron will head up the corporate communications team daily efforts allowing Lyn to focus on the integration project. As many of you are aware, Ron has a strong background that includes communications, and, he will continue to serve our needs well as liaison to George Petty.

Please join me in welcoming Ron. I know he can count on your support.
